

CONSIGNMENT PROGRAMS A SMART SOLUTION

Consignment programs offer flexibility to operations such as yours that can help improve your bottom line. Tri-lift NJ offers a consignment parts program at no initial cost to you. Based on your operations needs, Tri-Lift NJ will inventory and stock the most commonly used parts within your operation. This will greatly expedite repairs and reduce your downtime.

We've got you covered.

The parts inventory will be reconciled on a monthly basis and the parts used will be invoiced at that time. There's no need for you to keep track of what you used and when, we do all the work and only bill you for what you use.

An adaptive solution.

Tri-Lift NJ will re-analyze the parts usage and complete inventory consumption on an bi-annual basis. We will then discuss recommendations with you and adjust your consignment inventory as necessary.
